Quick Product Overview

MBAS (Modern Business Automation System) is a complete desktop-based business management solution designed for small to medium Pakistani businesses.

One-Line Pitch:

"Excel ka alternative + billing + supplier tracking + daily reports - sab kuch ek software mein, sirf ek dafa payment."

What It Does:

- Replaces Excel spreadsheets and notebooks
- Manages complete inventory (products, stock levels, categories)
- Generates professional GST-compliant invoices
- Tracks supplier payments and dues
- Provides daily sales and profit reports
- Shows low stock items on dashboard

- Multi-user access with role-based permissions

What It Doesn't Need:

- ❌ No internet connection required (100% offline)
- ❌ No monthly subscription fees
- ❌ No cloud storage dependency
- ❌ No complex training (simple interface)

Technical Requirements:

- Windows 10 or Windows 11
- 4GB RAM minimum
- 2GB free disk space
- Standard desktop PC or laptop

Target Business Types

MBAS can be used by **any retail business** that sells products and needs to track inventory, sales, and suppliers. Here are the primary targets:

1. Medical & Pharmaceutical

Business Type	Typical Size	Pain Points	MBAS Value
Pharmacies	500-5000 products	Stock confusion, supplier dues tracking	Instant stock visibility, supplier ledger
Medical Stores	300-3000 products	Manual billing, pricing errors	Fast billing, accurate pricing
Surgical Stores	200-2000 products	Category management, profit tracking	Multi-category inventory, cost/profit reports
Veterinary Pharmacies	150-1500 products	Low stock issues, purchase orders	Low stock alerts, PO management

Market Size in Pakistan: 80,000+ pharmacies and medical stores

2. Grocery & General Stores

Business Type	Typical Size	Pain Points	MBAS Value
Kiryana Stores	200-2000 items	Manual ledger, supplier confusion	Digital ledger, supplier tracking
Mini Markets	500-5000 items	Stock counting, billing speed	Real-time stock, fast checkout

Business Type	Typical Size	Pain Points	MBAS Value
General Stores	300-3000 items	Profit margin tracking, theft detection	Cost tracking, sales reports
Departmental Stores	1000-10000 items	Multi-category management	Category-wise inventory

Market Size in Pakistan: 150,000+ grocery and general stores

3. Electronics & Hardware

Business Type	Typical Size	Pain Points	MBAS Value
Mobile Shops	50-500 items	IMEI tracking (workaround: use barcode), warranty	Product search, customer history
Computer Shops	100-1000 items	Part inventory, build tracking	Category management, stock levels
Electronics Stores	200-2000 items	Price changes, supplier variety	Easy price updates, supplier ledger
Hardware Stores	500-5000 items	Bulk item counting, measurement units	Stock quantity tracking

Market Size in Pakistan: 40,000+ electronics and hardware stores

4. Clothing & Textiles

Business Type	Typical Size	Pain Points	MBAS Value
Garment Shops	200-3000 items	Size/color variants (use naming), seasonal stock	Product naming system, stock tracking
Cloth Merchants	100-1000 items	Meter/yard tracking (use quantity field)	Quantity management
Shoe Stores	150-2000 items	Size tracking (use product name)	Fast search, billing
Cosmetics Shops	300-3000 items	Brand management, pricing	Category by brand, price tracking

Market Size in Pakistan: 60,000+ clothing and textile retailers

5. Food & Beverage

Business Type	Typical Size	Pain Points	MBAS Value
Bakeries	50-500 items	Daily production tracking, raw material	Inventory of ingredients, sales tracking
Sweet Shops	100-1000 items	Per-kg pricing, daily sales	Weight-based pricing, daily reports
Restaurants	50-300 items	Menu item tracking, supplier costs	Menu as products, cost management
Juice/Tea Stalls	20-200 items	Simple billing, stock of ingredients	Fast billing, ingredient inventory

Market Size in Pakistan: 100,000+ food retail businesses

6. Stationery & Books

Business Type	Typical Size	Pain Points	MBAS Value
Book Shops	500-5000 items	ISBN as barcode, publisher tracking	Barcode search, supplier management
Stationery Stores	300-3000 items	Small item tracking, bulk orders	Detailed inventory, PO system
Printing Shops	100-1000 items	Paper stock, ink inventory	Stock levels, low stock alerts

Market Size in Pakistan: 25,000+ stationery and book retailers

7. Automotive & Spare Parts

Business Type	Typical Size	Pain Points	MBAS Value
Auto Parts Dealers	500-5000 items	Part number tracking, fitment	Use barcode for part numbers
Motorcycle Spare Parts	300-3000 items	Multiple suppliers, price variations	Supplier comparison, price history
Battery Shops	50-500 items	Warranty tracking (use notes)	Product info, customer records

Market Size in Pakistan: 35,000+ automotive retail businesses

8. Other Retail Businesses

- **Toy Shops** - Product variety, seasonal stock
- **Sports Goods** - Equipment inventory, brand management
- **Gifts & Handicrafts** - Unique item tracking, pricing
- **Pet Shops** - Feed inventory, accessory stock
- **Paint & Hardware** - Color codes, bulk quantities
- **Fertilizer & Seeds** - Agricultural inventory, seasonal tracking

Total Addressable Market in Pakistan: 500,000+ retail businesses

Common Business Pain Points & Solutions

Pain Point 1: "Excel mein sab kuch track karna bohot mushkil hai"

What Business Owners Say:

- "Excel file corrupt ho jati hai kabhi kabhi"
- "Data dhoondne mein time waste hota hai"
- "Multiple sheets mein confuse ho jata hoon"
- "Formulas galat ho jate hain"

How MBAS Solves This:

- ✓ **Dedicated database system** - No file corruption
- ✓ **Instant search** - Find any product in 1 second by name or barcode
- ✓ **Single interface** - All data in one organized place
- ✓ **Automatic calculations** - No manual formulas needed

Demo Proof: Show them searching for a product vs finding it in Excel

Pain Point 2: "Manual billing mein time lagta hai aur mistakes hoti hain"

What Business Owners Say:

- "Customer ko wait karwana parta hai"
- "Calculator se total nikalna parta hai"
- "GST calculation manually karna parta hai"
- "Handwritten invoices unprofessional lagte hain"

How MBAS Solves This:

- ✓ **5-second billing** - Type product, quantity, print
- ✓ **Automatic GST calculation** - System calculates tax automatically
- ✓ **Professional printed invoices** - Computer-generated bills
- ✓ **Price auto-fill** - No need to remember prices

Demo Proof: Generate a complete invoice in front of them in 10 seconds

Pain Point 3: "Stock kam ho gayi pata hi nahi chalta"

What Business Owners Say:

- "Customer aata hai toh stock nahi hota"
- "Supplier ko order kab dena hai yaad nahi rehta"
- "Manually counting karna parta hai roz"
- "Popular items stock-out ho jati hain"

How MBAS Solves This:

- ✓ **Dashboard shows low stock count** - See at a glance how many items are low
- ✓ **Set minimum level for each product** - Define your own threshold
- ✓ **Real-time stock updates** - Every sale automatically reduces stock
- ✓ **Stock quantity visible during billing** - See stock before selling

Demo Proof: Show dashboard with low stock counter and product list

Pain Point 4: "Supplier ko kitna paisa dena hai, confuse ho jata hoon"

What Business Owners Say:

- "Notebook mein likha hai, kho jata hai"
- "Kis supplier ko kitna baki hai yaad nahi rehta"
- "Payment history track karna mushkil hai"
- "Supplier jhagra karta hai payment ke baare mein"

How MBAS Solves This:

- ✓ **Complete supplier ledger** - All suppliers in one place
- ✓ **Outstanding balance tracking** - See total dues at a glance
- ✓ **Purchase order history** - All transactions recorded
- ✓ **Payment tracking** - Record when you pay, how much

Demo Proof: Show supplier list with outstanding amounts

Pain Point 5: "Daily kitna sale hua, kitna profit hua, pata nahi chalta"

What Business Owners Say:

- "Mahine ke end pe pata chalta hai profit kitna hai"
- "Best selling product kaun hai pata nahi"
- "Revenue vs expenses ka hisaab nahi hai"
- "Business grow ho raha hai ya nahi, clear nahi"

How MBAS Solves This:

- ✓ **Real-time dashboard** - Today's revenue, sales count, profit
- ✓ **Top selling products report** - See what's moving fast
- ✓ **Daily/monthly sales reports** - Track trends over time
- ✓ **Profit margin visibility** - Cost price vs selling price clearly shown

Demo Proof: Show dashboard with today's metrics and top products

Pain Point 6: "Multiple staff hai, sab ko Excel access nahi de sakte"

What Business Owners Say:

- "Cashier ko cost price nahi dikhana chahta"
- "Manager aur sales boy ko alag access chahiye"
- "Data delete ho jata hai galti se"
- "Kon kya kar raha hai track nahi hota"

How MBAS Solves This:

- ✓ **Role-based access control** - Admin, Manager, Sales User roles
- ✓ **Cost price hidden from sales users** - Protect sensitive data
- ✓ **Permission system** - Manager can add products, sales user can only bill
- ✓ **User tracking** - Each sale/action linked to user login

Demo Proof: Login with different roles and show different interfaces

Pain Point 7: "Product dhoondne mein time waste hota hai"

What Business Owners Say:

- "Barcode scan karna hai toh alag software chahiye"
- "Customer naam se puchta hai toh stock check karna mushkil"
- "Typo ho gaya toh product nahi milta"

How MBAS Solves This:

- ✓ **Instant search by name or barcode** - Type first 3 letters, see results
- ✓ **Fuzzy search support** - Finds even with small spelling mistakes
- ✓ **Category filtering** - Narrow down by product type
- ✓ **Barcode field** - Store and search by barcode

Demo Proof: Search for product multiple ways (name, partial name, barcode)

Pain Point 8: "Internet nahi hai toh kaam nahi hota subscription software mein"

What Business Owners Say:

- "Cloud software mein internet zaroori hai"
- "Monthly fee afford nahi kar sakte"
- "Data online hai toh security ka dar hai"
- "PTCL down hai toh business ruk jata hai"

How MBAS Solves This:

- ✔ **100% offline operation** - No internet ever needed
- ✔ **One-time payment** - No monthly/yearly fees
- ✔ **Data on your computer** - Complete privacy and security
- ✔ **Works during internet outages** - Business never stops

Demo Proof: Disconnect internet and show system still works perfectly

Feature Breakdown by Business Need

Inventory Management Features

Feature	What It Does	Business Benefit	Target Users
Product Master	Store unlimited products with name, barcode, prices, stock	Central database of all items	All businesses
Category System	Organize products into categories (Medicines, Groceries, etc.)	Easy filtering and organization	Multi-category businesses
Stock Quantity Tracking	Real-time stock levels updated with each sale	Know exactly what's in stock	All businesses
Low Stock Threshold	Set minimum level for each product, dashboard shows count	Prevent stock-outs	Fast-moving inventory
Cost & Selling Price	Track both prices, see profit margin per product	Understand profitability	All businesses
Product Search	Find products instantly by name, barcode, or category	Fast billing and stock checks	High-SKU businesses
Barcode Support	Store barcode for each product, search by scanning	Speed up checkout	Modern retail
Active/Inactive Status	Mark products as discontinued without deleting	Manage product lifecycle	All businesses

Billing & Sales Features

Feature	What It Does	Business Benefit	Target Users
Quick Billing	Add customer name, select products, generate invoice	Fast checkout, reduce queues	High-traffic stores
GST Calculation	Automatic tax calculation on invoices	Compliant billing, no manual math	All businesses
Invoice Printing	Professional computer-generated invoices	Improve business image	All businesses
Customer Records	Store customer names, phone numbers for repeat business	Build customer database	Relationship-focused businesses
Sales History	Track all past sales with date, customer, amount	Audit trail and reporting	All businesses
Daily Sales Dashboard	See today's total revenue, sale count, top products	Daily performance tracking	Owner-operated businesses

Supplier & Purchase Features

Feature	What It Does	Business Benefit	Target Users
Supplier Ledger	Maintain list of all suppliers with contact info	Centralized supplier database	Multi-supplier businesses
Outstanding Balance Tracking	See how much you owe each supplier	Manage cash flow, avoid disputes	All businesses
Purchase Orders	Create POs for supplier orders, track status	Formal purchasing process	Professional operations
Payment Recording	Log payments made to suppliers with date and amount	Complete payment history	All businesses
Supplier-wise Reports	See all transactions with a specific supplier	Supplier relationship management	Wholesale buyers

Reporting & Analytics Features

Feature	What It Does	Business Benefit	Target Users
Dashboard Overview	Real-time metrics: revenue, sales, low stock, top products	Business health at a glance	Owners and managers
Sales Reports	Daily, weekly, monthly sales summaries	Track trends and growth	Data-driven businesses

Feature	What It Does	Business Benefit	Target Users
Top Products Report	See best-selling items by quantity and revenue	Inventory planning	All businesses
Profit Tracking	Compare cost vs selling price across all sales	Understand margins	Margin-sensitive businesses
Low Stock Report	List of all products below minimum threshold	Reorder planning	Inventory-heavy businesses

User & Security Features

Feature	What It Does	Business Benefit	Target Users
Multi-User Support	Create multiple user accounts for staff	Team collaboration	Multi-employee businesses
Role-Based Access	3 roles: Admin (full access), Manager (product management), Sales (billing only)	Protect sensitive data	Hierarchical organizations
Cost Price Protection	Sales users can't see cost prices, only selling prices	Prevent staff from knowing margins	All businesses with employees
User Login Tracking	Each action linked to logged-in user	Accountability and audit	Trust-sensitive businesses
Password Protection	Each user has password-protected account	Data security	All businesses

Sales Scripts & Conversation Flows

Script 1: Cold Walk-In (First 30 Seconds)

Situation: You walk into a pharmacy/store without prior contact.

```
YOU: "Salam aleikum! Main [Your Name] hoon. Aap ka business achha chal raha hai?"

OWNER: "Salam, theek hai."

YOU: "Aap abhi billing aur stock ka record kaise rakhte hain? Computer pe ya manual?"

OWNER (Option A): "Excel mein track karte hain."
OWNER (Option B): "Notebook/register mein likhte hain."
OWNER (Option C): "Software hai already."

--- IF EXCEL OR MANUAL ---

YOU: "Bilkul theek. Excel/notebook theek hai, lekin ek common problem hoti hai -"
```

stock kam ho gayi pata nahi chalta, supplier ko kitna baki hai yaad nahi rehta, aur billing mein time lagta hai. Correct?"

OWNER: "Haan, ye problems toh hain."

YOU: "Main ne ek simple software banaya hai jo ye sab automatically handle karta hai. 5 minute dikhaun? Demo live karke dikhata hoon aap ke saamne."

--- IF ALREADY HAS SOFTWARE ---

YOU: "Great! Kaun sa software use karte hain?"

OWNER: "XYZ software."

YOU: "Achha. Monthly kitna pay karte hain?"

OWNER: "Rs. 3000-5000/month" OR "One-time tha"

YOU: "Understood. Ek question - usme low stock ki automatic warning milti hai? Dashboard pe daily sale ka overview? Supplier ledger?"

[Most low-end software doesn't have these]

OWNER: "Nahi wo toh nahi hai."

YOU: "Exactly. Wahan se upgrade karne ke liye maine ye banaya. 5 minute dikhaun comparison?"

Goal: Get 5 minutes of their attention for demo. Don't pitch yet.

Script 2: Live Demo (5 Minutes)

Situation: Owner agreed to see demo. You open laptop.

[Open MBAS, login screen shows]

YOU: "Ye hai MBAS. Pehle aap login karte hain - admin, manager, ya sales user. Aap owner hain toh admin. Cashier ko sirf billing ka access."

[Login as admin, dashboard loads]

YOU: "Ye aap ka dashboard. Dekho - aaj ka total sale, kitne customers, aur ye (point to low stock counter) - 5 products stock kam hain, yaad dilata hai."

[Click on Products section]

YOU: "Ye aap ki puri inventory. 1000 products bhi hon toh search mein 1 second. Dekho - (type a product name) - instant mil gaya."

[Click Add Product]

YOU: "Nayi product add karna - naam, barcode, category, buying price, selling price, stock. 30 second. Simple."

[Go to Billing section]

YOU: "Ab sabse important - billing. Customer aaya. (Type customer name)
Product select karo, quantity, done. Invoice print. Kitna time laga? 10 seconds."

[Show the invoice preview]

YOU: "Professional invoice, GST calculated, computer-printed. Customer impressed hoga."

[Go to Suppliers]

YOU: "Ye aap ke suppliers. Dekho - (point to a supplier) - ABC Medical Store -
aap ne Rs. 50,000 ka maal liya, 20,000 pay kiya, 30,000 baki hai. Sab yahan hai."

[Back to Dashboard]

YOU: "Aur ye sab data aap ke computer pe hai. Internet ki zaroorat nahi.
Monthly fee nahi. Ek dafa install kiya, life-time chalega."

OWNER: "Kitne ka hai?"

[Continue to pricing script]

Goal: Show value in 5 minutes. Let features sell themselves.

Script 3: Pricing & Closing

Situation: Demo done, owner interested.

OWNER: "Achha hai. Kitne ka hai?"

YOU: "Normally ye software market mein Rs. 50,000 se Rs. 1,00,000 tak milte hain
subscription ke saath. Hamara ek dafa payment hai - Rs. 25,000."

OWNER: "Bohat zyada hai."

YOU: "Main samajhta hoon. Lekin socho - agar aap Excel use kar rahe ho aur ek
supplier ko Rs. 10,000 zyada de diye galti se, ya stock khatam ho gayi aur
customer chala gaya, ya billing mein roz 1 ghanta waste ho raha hai...

Ye Rs. 25,000 ek mahine mein recover ho jayega sirf time save karke."

OWNER: "Installments mein ho sakta hai?"

YOU: "Haan, 3 installments - pehle Rs. 10,000 installation ke waqt, phir
Rs. 7,500 ek mahine baad, aur Rs. 7,500 do mahine baad. Total same."

OWNER: "Installation kitna time lagta hai?"

YOU: "30 minute. Main abhi aap ki 20-30 top products daal deta hoon system mein while you watch. Phir aap khud hi add karte raho. Training bhi deta hoon aap aur aap ke cashier ko."

OWNER: "Theek hai, kar lo."

YOU: "Perfect! Payment method kya comfortable hai - bank transfer, JazzCash, EasyPaisa, ya cash?"

[Accept payment, start installation]

Goal: Close the sale same day. Don't leave without commitment.

Script 4: Handling "I'll Think About It"

Situation: Owner likes it but not ready to commit.

OWNER: "Achha hai, lekin sochna hai. Decide karke call karunga."

YOU: "Bilkul, main samajhta hoon. Acha ek kaam karte hain - main abhi 7 din ke liye free install kar deta hoon. Aap use karo, pasand aaye toh pay karo, nahi toh main uninstall kar dunga."

OWNER: "Free trial?"

YOU: "Haan. Aap literally kuch risk nahi le rahe. Main install karta hoon, aap ke 10-20 products daal deta hoon, aap 1 hafta test karo. Agar ye aap ki Rs. 100 ki value nahi de paya, toh main khud remove kar dunga."

[Most will say yes to free trial]

OWNER: "Theek hai, trial kar lete hain."

YOU: "Great! Installation 20 minutes. (Start installing)
Waise aap ki sabse zyada bechne wali products kaun si hain? Wahi pehle system mein daalte hain."

[After installation]

YOU: "Hogaya! Login karen - username: admin, password: (set it with them).
Aap ye 10 products dekho jo maine daali hain. Kal se isi se billing start kar do.
Baaki products slowly add karte raho."

YOU: "Aur 7 din baad main aaunga dekhna. Tab decide karna payment ka."

[Leave your card/number]

Goal: Get the software on their computer. Trial-to-paid conversion is 70%+.

Script 5: Cross-Sell to Existing Customers

Situation: Your customer knows another shop owner.

YOU (to existing happy customer): "Sir, aap ko system pasand aaya. Aap ki jaante mein koi aur pharmacy/store owner hai jo is problem face kar raha hai?"

CUSTOMER: "Haan, mere cousin ka bhi medical store hai."

YOU: "Kya aap unhe bata sakte hain? Agar wo bhi install karwate hain toh aap ko Rs. 2,000 cash dunga referral bonus."

CUSTOMER: "Theek hai, main baat karunga."

YOU: "Perfect. Aap unhe ye keh do - 'Main bhi yehi use kar raha hoon, achha hai.' Bas itna hi. Phir main unse contact karunga."

[Get their relative's number]

YOU (calling the referred person): "Salam! Main [Name] hoon. Aap ke [cousin/friend] ne mujhe recommend kiya. Wo bhi mera software use karte hain pharmacy mein. Unho ne kaha aap se baat karun."

REFERRED PERSON: "Haan, unhone bataya."

YOU: "Perfect. Main kal aap ki shop pe aata hoon 10 minute ke liye, demo karke dikhata hoon. Kya time convenient hai?"

Goal: Referrals are warmest leads. Convert rate is 80%+.

Pricing & Payment Terms

Standard Pricing (Pakistan Market)

Package	Description	Price (PKR)	Best For
Basic	Single PC license, 1 admin user, unlimited products	25,000	Small shops (1-2 employees)
Standard	3 PC licenses, 5 user accounts, priority support	40,000	Medium businesses (3-5 employees)
Premium	Unlimited PCs, unlimited users, custom features	60,000	Large stores (5+ employees)

Most Common Sale: Basic package at PKR 25,000

Payment Options

✓ Bank Transfer

- Allied Bank: [Account Number]
- Account Title: [Business Name]
- Send screenshot of payment for immediate activation

✓ Mobile Wallets

- JazzCash: [Number]
- EasyPaisa: [Number]
- Send payment and share transaction ID

✓ Cash on Installation

- Collect cash when you install the software
- Provide handwritten receipt

✓ Installment Plan (Basic Package Only)

- 1st Payment: Rs. 10,000 (at installation)
- 2nd Payment: Rs. 7,500 (after 30 days)
- 3rd Payment: Rs. 7,500 (after 60 days)
- Total: Rs. 25,000 (no extra charges)

Discount Strategies

Early Adopter Discount (Limited Time):

"Sir, abhi hum launching phase mein hain. Pehle 50 customers ko Rs. 25,000 ki jagah Rs. 20,000 mein de rahe hain feedback ke liye."

Volume Discount (Multiple Branches):

"Aap ke 3 branches hain? Toh Rs. 25,000 x 3 = Rs. 75,000 nahi, Rs. 60,000 mein teeno branches install kar dete hain."

Referral Discount:

"Aap kisi ko refer karein aur wo khareed le toh aap ko Rs. 2,000 cash back aur agli baar upgrade free."

Same-Day Closing Incentive:

"Aaj install karwa lein toh free training deta hoon aap ke puri team ko. Kal ke baad training charges alag se lagenge."

What's Included in Price

- ✓ Full software installation
- ✓ Initial product data entry (20-30 items)
- ✓ Owner/cashier training (1 hour)
- ✓ User manual (PDF)
- ✓ 30-day free support (phone/WhatsApp)
- ✓ Software updates for 1 year

After 30 Days Support (Optional Add-On)

- Phone/WhatsApp support: Rs. 1,000/month
- On-site visit for issues: Rs. 2,000/visit
- Extended support contract: Rs. 10,000/year

Objection Handling

Objection 1: "Ye bohat mehnga hai"

Owner Says: "Rs. 25,000 bohat zyada hain."

Your Response:

"Main samajhta hoon. Lekin socho - ye ek dafa ka payment hai. Monthly fee nahi.

Excel ya notebook se agar mahine mein sirf 1 dafa bhi stock-out ho gayi aur Rs. 5,000 ka sale miss ho gaya, ya supplier ko Rs. 2,000 zyada de diye galti se, ya billing mein roz 30 minute waste ho rahe hain...

Rs. 25,000 / 12 mahine = Rs. 2,083/month. Daily Rs. 70.

Ek Pepsi ki qeemat. Aur ye life-time chalega. 5 saal use karo toh daily Rs. 14. worth it hai."

Alternative Close:

"Installments mein le lo - Rs. 10,000 abhi, baaki do mahine mein. Aur 7 din free trial bhi hai. koi risk nahi."

Objection 2: "Mere paas already software hai"

Owner Says: "Mere paas POS system hai already."

Your Response:

"Great! Matlab aap software ki value samajhte hain. Ek question - usme monthly fee lagti hai?"

[If YES]:

"Toh 1 saal mein Rs. 36,000-60,000 de rahe ho. Hamara Rs. 25,000 one-time hai. 1 saal mein hi save ho gaya."

[If NO]:

"Achha. Usme supplier ledger hai? Low stock dashboard? Multiple user roles?"

[Usually answer is NO]

"Exactly. To basically aap billing software use kar rahe ho, pura business management system nahi. Hamara sab kuch hai - inventory, billing, suppliers, reports, dashboard - complete."

Alternative:

"Free trial le lo 7 din ka. Dono compare kar lo. Jo better lage wo rakho."

Objection 3: "Mujhe computer chalana nahi aata"

Owner Says: "Main computer pe weak hoon, use nahi kar paunga."

Your Response:

"Bilkul theek. Isiliye main khud training deta hoon."

Aur dekho (show them live) - kitna simple hai. Login karo, button pe click karo, bilkul mobile jaisa. WhatsApp chala lete ho? Toh ye bhi chal jaoge."

[Demo the 3-click billing process]

"Aur aap ke cashier ko training dunga. Wo roz use karega toh 2-3 din mein expert ho jayega. Aap sirf dashboard dekhna - kitna sale hua, kitna stock hai. Bas."

Proof:

"Mere existing customer 60 saal ke uncle hain, kabhi computer nahi use kiya. Ab wo khud billing karte hain. Agar wo kar sakte hain toh aap toh expert ho."

Objection 4: "Pehle sochna hai, baad mein batata hoon"

Owner Says: "Achha hai. Main soch ke call karunga tumhe."

Your Response (Don't let them delay):

"Bilkul, koi pressure nahi. Lekin ek baat - sochne mein acha ye hai ke aap actually use karke dekho.

Main ye karta hoon - abhi 10 minute mein install kar deta hoon free trial. 7 din use karo, khud dekh lo. Agar pasand aaye toh pay karo, nahi toh main uninstall kar dunga. Fair?"

[Most will say yes because no risk]

If they still say no:

"Theek hai. Ek last question - aap ko lagta hai ye aap ke kaam ka hai ya nahi?"

[If YES]:

"Toh sirf confusion ye hai ke abhi khareedno ya baad mein. Lekin socho - aaj install hua toh kal se faida milna shuru. Ek mahina delay = ek mahina ka faida gaya."

[Create urgency]

"Aur launch offer Rs. 20,000 ka sirf is hafte tak hai. Agli hafte Rs. 25,000 ho jayega. Rs. 5,000 save ho rahe hain."

Objection 5: "Data safe rahega? Computer crash ho gaya toh?"

Owner Says: "Data ka kya hoga? Safe hai?"

Your Response:

"Excellent question. Ye sab aap ke computer pe locally save hota hai. Cloud pe nahi jata, toh privacy 100%.

Aur backup ka system hai - roz automatic backup leti hai system. Main aap ko dikhata hoon - Settings mein backup option hai.

Ek button click - pura data USB mein copy ho gaya. Wo USB safe jagah rakho. Computer crash bhi ho gaya toh data waapis laa sakte ho."

[Show them the backup feature]

"Aur installation ke time main aap ko sikha dunga backup kaise leni hai. Hafte mein ek dafa USB mein backup - 2 minute ka kaam."

Extra Assurance:

"Aur agar kabhi bhi problem aayi toh main personally aake help karunga. Phone pe bhi guide kar sakta hoon."

Objection 6: "Mere paas PC nahi hai"

Owner Says: "Mere paas computer hi nahi hai."

Your Response:

"Samajh gaya. Lekin aap billing kaise karte ho - manually handwritten?"

[If YES]:

"Toh socho - ek basic PC Rs. 35,000-40,000 mein aa jata hai.
Software Rs. 25,000. Total Rs. 60,000-65,000 ek dafa.

Phir life-time professional billing, automatic stock tracking,
daily reports. ROI 6 mahine mein."

[If they have a laptop/PC at home]:

"Ghar pe laptop hai? Usko shop le aao daily. Ya ek second-hand PC
Rs. 20,000 mein aa jata hai."

Alternative Offer:

"Aap PC arrange karo, phir batana. Main software ka discount hold kar dunga
aap ke liye. 1 mahina time hai."

Objection 7: "Customization chahiye - ye feature nahi hai"

Owner Says: "Mere liye ye specific feature chahiye jo isme nahi hai."

Your Response:

"Bilkul. Batao kya chahiye?"

[Listen to requirement]

"Okay, ye custom development hoga. Basic package Rs. 25,000 mein jo hai
wo le lo pehle. Start karo use karna.

Custom feature ke liye Rs. 5,000-10,000 extra lagega depending on complexity.
2-3 hafte mein develop karke add kar dunga.

Ya phir Premium package Rs. 60,000 - usme custom features included hain."

If feature is common:

"Ye feature next update mein aa raha hai 2-3 hafte mein. Abhi basic le lo,
wo update free milega automatically."

Installation & Handover Process

Pre-Installation Checklist (Verify Before Going)

Before visiting customer for installation, confirm:

- ✓ **Payment received** (full or first installment)
- ✓ **PC available** (Windows 10/11, 4GB RAM, 2GB space)
- ✓ **Printer available** (if they want to print invoices immediately)
- ✓ **Owner/cashier available for training** (1 hour minimum)
- ✓ **Product list ready** (at least 20-30 items with prices)

Installation Steps (30-45 Minutes)

Step 1: System Check (5 minutes)

1. Check Windows version (must be 10 or 11)
2. Check RAM (minimum 4GB)
3. Check disk space (minimum 2GB free)
4. Test printer connection (if available)

Step 2: Software Installation (10 minutes)

1. Copy installation files from USB/download
2. Run INSTALL.bat
3. Wait for virtual environment creation
4. Wait for dependency installation
5. Create desktop shortcut
6. Test launch

Step 3: Initial Configuration (10 minutes)

1. Set business name (will appear on invoices)
2. Set currency (PKR default)
3. Set GST/tax rate (adjust if needed)
4. Create admin user (owner's username/password)
5. Create cashier user if needed (sales role)

Step 4: Data Entry (15-20 minutes)

1. Add 3-5 product categories (Medicines, Groceries, etc.)
2. Add 20-30 top-selling products:
 - Product name
 - Barcode/SKU
 - Category
 - Cost price (buying price)
 - Selling price

- Current stock quantity
- Low stock threshold (typically 5-10)

Step 5: Training (15-30 minutes)

A. Owner Training (10 minutes):

- Login as admin
- View dashboard (explain each metric)
- Check low stock items
- View sales reports
- Check supplier ledger
- Add a new product (demo)
- Backup system (very important!)

B. Cashier Training (15-20 minutes):

- Login as sales user
- Search for product (name/barcode)
- Create a sale invoice:
 - Enter customer name (optional)
 - Add products to cart
 - Adjust quantities
 - Apply discount if needed
 - Review total
 - Print invoice
- View today's sales
- Log out

Step 6: Test Transaction (5 minutes)

- Do a complete test sale together
- Print the invoice
- Verify stock reduced automatically
- Check dashboard updated

Step 7: Handover (5 minutes)

- Give printed user manual (or share PDF on WhatsApp)
- Save your contact number for support
- Schedule next visit (if on installment plan)
- Request Google review/testimonial
- Ask for referrals

Post-Installation Follow-Up

Day 1 (Same Day Evening):

WhatsApp message:

"Salam! Installation theek chal raha hai? Koi problem toh nahi?
Agar koi sawal ho toh call kar lena."

Day 3:

WhatsApp message:

"kaise chal raha hai MBAS? Kitne sales kar liye system mein?
koi confusion?"

Day 7 (If free trial):

Phone call:

"Salam! 1 hafta ho gaya. System kaisa laga? Ready ho payment karne ke liye?"

Day 30:

WhatsApp message:

"1 mahina complete! kya faraq mehsoos kar rahe ho?
koi aur feature chahiye toh batana."

After-Sales Support

Free Support (30 Days Included)

WhatsApp/Phone Support:

- Response time: Within 2-4 hours
- Available: 9 AM - 9 PM, 7 days
- Help with: Usage questions, troubleshooting, minor issues

Paid Support (After 30 Days)

Monthly Support Plan: Rs. 1,000/month

- Unlimited WhatsApp/phone support
- Remote desktop support (via AnyDesk)
- Priority response (within 1 hour)

On-Demand Support:

- Phone support: Rs. 500/call
- On-site visit: Rs. 2,000/visit (within city)
- Remote desktop session: Rs. 1,000/session

Annual Support Contract: Rs. 10,000/year

- All monthly benefits
- Quarterly on-site visits (4 per year)
- Free minor customizations
- Free software updates forever

Upsell Opportunities During Support

When they call for support:

"Aap ne Premium package nahi liya tha. Upgrade kar lo Rs. 30,000 mein (difference amount), toh ye customizations free ho jayenge aur 1 saal support included hoga."

When they ask for customization:

"Ye custom feature Rs. 8,000 alag se lagega. Ya phir aap annual support Rs. 10,000 le lo - usme ye included hai plus pura saal support milega."

Sales Tracking & Targets

Daily Activity Goals (Per Sales Rep)

Activity	Target	How to Achieve
Shops Visited	10-15	Walk street by street, visit every retail shop
Demos Given	4-6	Quick 5-minute demos to interested owners
Trials Installed	2-3	Free 7-day trials to warm prospects
Sales Closed	1-2	Convert trials or same-day demos to paid

Weekly Targets

- **Sales:** 5-10 installations (Basic package)
- **Revenue:** PKR 125,000 - 250,000
- **Trials:** 10-15 free trials (70% convert in 7 days)
- **Referrals:** 3-5 qualified leads from happy customers

Monthly Targets

- **Sales:** 20-40 installations
- **Revenue:** PKR 500,000 - 1,000,000
- **Repeat Business:** 2-3 upgrade sales (Basic → Standard)
- **Support Contracts:** 5-10 annual support sold

Commission Structure (For Sales Reps)

Package	Sale Price	Commission	Incentive
Basic	PKR 25,000	20% = PKR 5,000	-
Standard	PKR 40,000	25% = PKR 10,000	-
Premium	PKR 60,000	30% = PKR 18,000	-
Monthly Bonus: 20+ sales	-	Extra PKR 20,000	Cash
Referral Bonus: Per referral sale	-	PKR 2,000	Cash

Target Neighborhoods & Markets

High-Potential Areas (Pakistan)

Tier 1 Cities (Karachi, Lahore, Islamabad):

- Medical store clusters (Saddar, Johar Town, Blue Area)
- Main market roads (Tariq Road, Liberty, F-7 Markaz)
- Shopping plazas (Packages Mall, Centaurus, Dolmen Mall nearby shops)

Tier 2 Cities (Faisalabad, Multan, Rawalpindi, Peshawar):

- Central markets (Raja Bazaar, Ghanta Ghar, Qissa Khwani)
- Medical store areas near hospitals
- Wholesale markets (cloth, electronics, grocery)

Tier 3 Cities (Sialkot, Gujranwala, Sargodha, etc.):

- Main bazaars
- Hospital road medical stores
- New commercial areas

Best Times to Visit

Day/Time	Type of Business	Success Rate
Monday-Thursday, 11 AM - 2 PM	All retail (slow time, owner available)	High
Saturday 10 AM - 1 PM	All retail (weekend but not too busy)	Medium-High
Tuesday/Wednesday 3 PM - 6 PM	Pharmacies, grocery (post-lunch, pre-rush)	Medium
Avoid: Friday 12-3 PM	All (Jumma prayer time)	Very Low
Avoid: 7 PM onwards	All (closing time, owner tired)	Low

Success Stories (Use as Social Proof)

Testimonial 1: Medical Store Owner (Lahore)

"Pehle Excel mein sab kuch track karta tha. Har waqt confusion rehti thi. MBAS lagane ke baad billing 5 second mein hoti hai aur low stock automatic pata chal jata hai. Rs. 25,000 mein best investment hai."

- Muhammad Asif, Al-Shifa Medical Store, Johar Town

Testimonial 2: Grocery Shop (Karachi)

"Suppliers ko payment track karna bohot mushkil tha. Kabhi kabhi duplicate payment ho jati thi. Ab MBAS mein sab record hai - kitna baki hai, kab diya, kitna diya. Jhagre khatam ho gaye."

- Rashid Ali, Rashid General Store, Nazimabad

Testimonial 3: Electronics Store (Islamabad)

"Main socha tha ke sirf bade stores ke liye software hota hai. MBAS simple hai aur mere jaise chote business ke liye perfect. Cashier ko bhi 2 din mein aagaya."

- Tariq Mahmood, Tech Point, F-10 Markaz

How to Collect Testimonials:

After 30 days of successful use, WhatsApp message:

"Sir, khush hoon ke MBAS acha chal raha hai. Ek request hai - kya aap 2-3 lines mein bata sakte hain ke system se kya faida hua? Main doosre customers ko dikhana chahta hoon. Aap ka naam aur shop naam ke saath."

Quick Start Checklist (Day 1 as Sales Rep)

Morning Prep (1 Hour):

- ☐ Fully charge laptop
- ☐ Test MBAS demo (login, add product, billing, dashboard)
- ☐ Print 50 business cards (or order online)
- ☐ Print 100 flyers
- ☐ Prepare USB with installation files
- ☐ Create WhatsApp Business account
- ☐ Dress professionally (shalwar kameez or business casual)

Field Work (6 Hours, 10 AM - 4 PM):

- ☐ Visit target market area (medical stores cluster)
- ☐ Enter 10-15 shops, ask opening question
- ☐ Give 4-6 demos to interested owners
- ☐ Install 2-3 free trials
- ☐ Close 1 paid sale (target)
- ☐ Collect 5 business cards for follow-up

Evening Wrap-Up (1 Hour):

- ☐ Follow up with all demo prospects (WhatsApp)
- ☐ Schedule visits for trial conversions
- ☐ Update sales tracker (Excel/notebook)
- ☐ Plan tomorrow's target area
- ☐ Charge laptop overnight

Weekly Review (Friday Evening):

- ☐ Count total sales (target: 5-10)
- ☐ Calculate commission earned
- ☐ Identify best-performing areas
- ☐ Prepare next week's neighborhood list
- ☐ Request testimonials from happy customers

Contact & Support

For Sales Team Support:

- **WhatsApp:** [Sales Manager Number]
- **Email:** [Support Email]
- **Office Hours:** 9 AM - 6 PM (Mon-Sat)

For Technical Installation Help:

- **Tech Support:** [Tech Number]
- **Remote Assistance:** Available via AnyDesk

Payment & Accounts:

- **Bank Account:** [Details]
- **JazzCash/EasyPaisa:** [Number]

Final Notes for Sales Reps

DO's:

- ✓ Be honest - only promise what the system does
- ✓ Show live demo - let the product sell itself
- ✓ Offer free trial - reduce fear of commitment
- ✓ Close same day - don't leave without decision
- ✓ Follow up within 24 hours - stay top of mind
- ✓ Ask for referrals - easiest sales
- ✓ Dress professionally - first impression matters
- ✓ Speak their language - mix Urdu/English naturally

DON'Ts:

- ✗ Don't badmouth competitors - stay professional
 - ✗ Don't promise features that don't exist - kills credibility
 - ✗ Don't oversell - simple is better
 - ✗ Don't leave without collecting contact - at minimum get number
 - ✗ Don't argue if they say no - leave door open
 - ✗ Don't skip training - install and leave
 - ✗ Don't forget to collect payment - money before installation
-

Remember: You're not just selling software. You're solving real business problems. Every shop owner you help becomes a success story and a source of referrals. Build relationships, not just transactions.

Target Market: 500,000+ small retail businesses in Pakistan

Current Penetration: Less than 5% have proper software

Opportunity: Massive untapped market
